Storm & Screen Doors

MLH Deluxe Locking Lever Handle Set

Ideal Security offers the sleek look of mortise hardware with the ease of surface mount installation. Sophisticated and elegant, the MLH offers classic lever style operation with the added security of an integrated interior deadbolt.

The MLH lever handle will add a touch of timeless elegance to any storm door.

- Surface mount installation for doors from 1" to 2-1/8" thick
- 1-3/4" standard hole spacing
- Available in long life brass e-coat and satin nickel finishes
- Packaged in latch set format

FOR THE RETAIL MARKET:

The SK1215 Series

Includes the outside keyed lever handle with inside (357) latch and deadbolt. Fits doors from 1" to 2-1/8" thick. Available in long life brass e-coat and satin nickel finishes.

The SK1215 can replace surface mount application push button, pull and lever handles using standard 1-3/4" hole spacing. Additional holes are required to install the key lock and interior deadbolt.

SK357 Inside Latch

Also available in black and white painted finishes
